Interactive Navigation Menus & Dropdown Panels

Complete documentation of all 7 interactive desktop dropdown navigation panels across the ZYPREXA healthcare-professional portal.

Overview Menu

5 sections

- → Indications
- → Mechanism of action
- → Dosing
- → Safety
- → Clinical evidence

Disease Background Menu

2 sections

- → Schizophrenia (symptom domains, progression)
- → Bipolar disorder (manic polarity, maintenance)

Mechanism of Action Menu

3 sections

- → Receptor profile (5-HT2 vs D2 binding)
- → Receptor occupancy (PET [11C]raclopride data)
- → Clinical relevance of receptor pharmacology

Dosing & Administration Menu

3 sections

- → Formulations (coated tablets vs injectable)
- → Starting doses & titration guidelines
- → Stopping treatment & tapering protocol

Safety & Monitoring Menu

8 sections

- → Contraindications
- → Special warnings and precautions
- → Monitoring schedule (weight, glucose, lipids)
- → Weight change profiles over time
- → Drug-drug interactions (CYP1A2, carbamazepine)
- → Pregnancy and lactation
- → Adverse reactions frequency table
- → Adverse reaction reporting contacts

Clinical Evidence Menu

4 sections

- → Schizophrenia controlled clinical trials
- → Bipolar disorder: acute manic episodes
- → Bipolar disorder: recurrence prevention
- → International clinical practice guidelines (APA, BAP, WPA)

References & Resources Menu

2 sections

- → Reference library (44 literature citations across clinical studies, guidelines, and SmPC regulatory documents)
- → Medical abbreviations and clinical terms dictionary
